

## Policy Statement – Process for issuing a Poley and Game pot rewards when rounds are incomplete due to weather

### Poley

1. In the event of weather conditions being such that a round of golf is not completed (all 18 holes are not completed) by more than 50% of the players, the poley pot will be rolled over to the next week's play date and any players who scored a poley on the rain day, will be automatically entered in the following week's winner pool. Wednesday pools will roll into the following Wednesday and Friday into the following Friday.
2. In the event of weather conditions being such that a round of golf impacts play, but is completed by more than 50% of the players, then any players who scored a poley will share in that day's poley pot.

### Game Pot

3. If all groups stop play before 18 holes are completed by any group, due to inclement weather, the game pot rolls into the following week ( remaining with Wednesday or Friday depending on rainout day)
4. If inclement weather impacts play, but some groups (must be the same foursome that started the round together) completes all 18 holes, then only those groups who finish are eligible to win the game pot of the day.
